DESIGNERS GUILD

For several years Designers Guild has been granted exclusive access to the extensive archive that is The Royal Collection, as well as many royal palaces. As a result, Tricia Guild has created sophisticated collections that are rich in tradition, inspired by the classic splendour of the Royal Household, yet are utterly relevant to contemporary living.

This season's serene collection features stately scrolls on elegant, jacquard woven silk damasks, exquisite embroideries on refined silk grounds and sweeping florals in large, dramatic scales. Each illustrious and intricate design is unique and possesses an integrity as well as being of the highest quality.
